Maybe even better than free.

We have no file size limit. You can upload any type of file (movies, music, documents, images, zip files and more). No account or credit card is required to get started. File is free to use with no gotchas and no hidden fees. It is also allowed to link to the download page from websites and communities. Alternatively you can choose to share your download links on blogs, forums and social networking sites. The cost of that data transfer is covered by your internet service or the data plan on your phone. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Simply upload your file and share the link. Our service is completely free for everyone. Any file in any format can be uploaded and downloaded for free. Unfortunately, we can't make that part free. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. So try our free and simple filehosting service now. Just upload the file you want to share with your friends and we send you a download link to your file. You decide who you want to share your files with. You don't need any special softwareinstalled to be able to download your files. If only we could, we surely would! On the other hand, using file can actually save you money. There are norestrictions on the number of times a file can be downloaded. Keep your files private, or send your download links only to friends or family. Using file, you cancircumvent those limits without paying to upgrade your team chat service. When you use file, you avoid storing the file you're sending in your cloud storage ormail server. You can give this download link to your friends by mail or instant messenger. Your wallet will be none-the-lighter! Just so we're all 100% clearhere: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. filehostingprovides an easy possibility for you to send large files to your friends. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts.Files can be downloaded from any computer from our high speed servers.
